

how SWRCB will fit this bill into the SWRCB new recycled water policy. In addition, there are stakeholder meetings required by July 2009. It was discussed on how a General Permit still needs to be written and recommendations on WaterReuse to work with SWRCB on this General Permit.

- AB 224: Status is unknown but assumed to be stalled. This bill was to conduct a statewide analysis on water policy regarding climate change.

5. Elections of new 2008 LACRWAC Officers:

Nominations for Joe Walters, Julia Aranda and John Robinson were received for the offices of President, Vice President, and Secretary/Treasurer, respectively. The nominations were put to the LACRWAC membership in attendance with an acceptance and 2nd acceptance of the nominations.

6. Proposed Speaking Topics for 2008:

Potential speaking topics discussed for 2008 included:

- A. On-Site Treatment/Reuse Presentation – Nominated by Carlos Borja
- B. Regulatory Oversight Workshop – Nominated by Stefan Cajina
 - a. Do we change Master Permit language
 - b. User Agreements
 - c. Final review “dual plumbed” – Timing of schedule
- C. Inland Empire Utilities Agency 3 year RW Implementation plan – Nominated by Rob Morrow
- D. Indirect Potable Reuse /GW Recharge – OCWD GWR Presentation – Nominated by Rob Morrow
- E. WBMWD/LBWD Desalination Pilot Plant Presentation – Nominated by Rob Morrow
- F. Carbon Footprint Presentation – Nominated by John Robinson
- G. Water/Pilot Energy – Nominated by Rob Morrow
- H. Mitigation of Recycled Water Odor – Nominated by Carlos Borja
- I. Cooling Tower
 - a. Filtration/Softening = 100 cycles
 - b. No blowdown or corrosion
 - c. TDS 110,000 ppm and pH 9-10
- J. Magnesium Oxide Vendor Presentation – Nominated by Carlos Borja
- K. Hydrogen Peroxide Vendor Presentation on LMU correction – Nominated by Carlos Borja

7. Proposed Location and Speaking Topics for Next Meeting

The tentative next local chapter meeting will be conducted at the Walnut Valley Water District offices located in the City of Walnut on February 12, 2008. Potential speaking topics will be the regulatory oversight workshop lead by Chi Diep and Stefan Cajina.

8. Other Items

Fire Fighting Manual update: Tabled until next meeting.

Stormwater Reuse Manual: Carlos Borja is still looking for comments from the LACRWAC membership. The manual is being created, as there is nothing out in the industry currently.

Deliverable: The most recent copy of the Stormwater Reuse Manual will be distributed to the membership.

Lena Babayan discussed with the membership fire sprinkler systems utilizing recycled water but not a dray system. The City of Burbank is attempting to provide recycled water for fire sprinklers for a building, as there are not enough potable water supplies. A discussion on the regulatory process and issues (discussion with the fire department, reliability on pressure and flow, biogrowth, etc.) was discussed. We discussed permit modifications and linkage to the CDPH as this issue is a case by case review.

Deliverable: MWH to provide City of Burbank the LACSD Fire Fighting Manual.

9. Adjournment

Attendees:

NAME	AGENCY	E-MAIL
Lena Babayan	Burbank Water & Power	lbabayan@ci.burbank.ca.us
Steve Sinardi	Burbank Water & Power	ssinardi@ci.burbank.ca.us
