• SPONSOR PROSPECTUS •

# 14th Annual Water Reuse & Desalination Research Conference

The 14th Annual Water Reuse & Desalination Research Conference provides an opportunity for the water reuse and desalination community to hear and see presentations by researchers on the latest results of ongoing research. The conference provides a forum for water reuse and desalination research professionals to interact, network, and discuss current and future research needs and trends.

The focus of the conference is on research that is likely to generate future scientific breakthroughs in water reuse and desalination. More than 40 podium and poster presentations in the program provide a focused and unique

opportunity for water reuse and desalination professionals to learn about new developments and trends emerging from current and ongoing research.

The WaterReuse Foundation is an educational, nonprofit corporation that serves as a “leading-edge” research organization to advance the science of water reuse, recycling, reclamation, and desalination on behalf of the water community. The Foundation’s applied research program covers a broad spectrum of issues, including chemical contaminants, microbiological agents, treatment technologies, salinity management, public perception, public acceptance, economics, and marketing.
