

# 2010 WateReuse Association State Section/Division Membership Application

WateReuse Association members are companies and agencies interested in water reuse and desalination projects. The Association has a staff located in the Washington, DC area to support the overall efforts of the Association. There are also several State Sections and an International Division that focus on unique legislative, regulatory, and funding issues in a given locale.

When an organization joins the Association, the organization becomes a member of both the entire Association and the local Section or Division; a portion of the member's dues are allocated to local efforts. The local WateReuse Section or Division is known as the member's Primary State of Membership or Primary Division of Membership. If the member company is located in a state or country that does not have a local Section or Division, the company may designate, if it chooses, a different state or country for their Primary State of Membership or Primary Division of Membership.

### About State Sections and International Divisions

Many companies have multiple locations and are interested in joining additional State Sections or International Divisions of the WateReuse Association. Each Associate Member may designate an additional minimum of \$250 per year to other State Sections or International Divisions to be recognized as a member in good standing of those State Sections or Divisions.

Companies may only select additional State Sections or International Divisions if their company is already a current Associate Member. If your company is not already a current member, please use the Associate Member application. To check if your company is a member, visit [www.WateReuse.org](http://www.WateReuse.org), select Membership Information, and click on Member List.

## Step 1: Provide Your Company's Information

Company Name: \_\_\_\_\_ Website: \_\_\_\_\_

Is your company a current Associate Member of the WateReuse Association?

- Yes  No (If no, please use the Associate Member application)

To check if your company is a member, visit [www.WateReuse.org](http://www.WateReuse.org), select Membership Information, and click on Member List.

Company's Primary State/Division of Membership: \_\_\_\_\_

Name of Person Completing this Application: \_\_\_\_\_

Telephone: \_\_\_\_\_ Fax: \_\_\_\_\_ E-mail: \_\_\_\_\_

## Step 2: Select Additional Memberships

Each member may designate a minimum of \$250 per year to be recognized as a member in good standing in additional State Sections or in an International Division. The contribution will be allocated to the State Section or International Division. Select as many as desired except the Primary State/Division of Membership included in Step 1. A Primary State/Division of Membership is selected when your company joins the Association.

- Australia (\$250) \$ \_\_\_\_\_
